

TECHNICAL BUSINESS UNIT - NOW IN GUATEMALA

The Intermarket Group is pleased to welcome Salomón David Gonzalez to the Technical Business Unit (TBU) team, who is based in Guatemala.

David's integration into the TBU, expands our presence in Latin America and continues to strengthen our consulting, training and technical support services.

As an Electronic Engineer, David has experience in instrumentation, technical support and service projects. His professional experience highlights David as a proactive and goal oriented engineer with strong analytical skills, perfectly reflecting the culture of The Intermarket Group.

The Intermarket Group is consistently committed to advance its technological offering and technical expertise defining our competitive advantage in the industries we represent. The expansion of our team with specialized professionals reinforces our mission to be the preferred supplier of integrated solutions, in the Graphic Arts Industry for Latin America and the Caribbean.
